that know

That woman's cause is man's. Once rise or sink
Tougher than dwarf or God like, tried
or tried.
For she that out of Lathe scales with
man,
The scaling signs of nature, shares
with man.
Her nights, his days, moves with him.
Stars all the fair young planet in her
hands.
If you're small—slight-natured, miserly,
How shall men grow? but work more
now, more abroad!

Her woman is not undeveloped man,
But man could make her make the man.

Sweet love were slain; her deepest
bond is man.

Not like her, like, but like in difference
To the four years like must they grow.

The more of woman, she of man.

He gain in swiftness and in moral
Highness, she gain in strength and
moral.

Now loves the wrestling thaws that
throws the world;

she loves the strength, nor fall in child-
ward care.

Nor lose the childhood in the larger
world.

Till at last she set herself to man, like
perfect music unto noble words.

 JOHN H. MCNAUL, Business Mgr.
 C. F. HAYES, Business Mgr.
 TUESDAY, OCTOBER 8, 1912.
HIS CHANCE TO SHINE.

Hon. Robert Rogers has arraigned those who believe in reciprocity as traitors to their country. Coming from some public men this libel would set Western Canada by the ears. Coming from Mr. Rogers it will only serve to remind the public that the Minister of the Interior has been making a speech in his usual vein.

Meantime, it remains for Mr. Rogers, as a patriotic citizen of the country and a member of its Government, to find an alternative market for the Canadian farmer—one to which his products may be sent in reasonable time, at reasonable cost, and at satisfactory profit; and one in which the farmer can sell his wheat and beef without losing his loyalty to the Empire of which Mr. Rogers is such an asset and glory.

MAKING HEADWAY.

Sir Wilfrid Laurier continues to plead the cause of the Western farmer before immense audiences in the towns and cities of "old Ontario." That such the lands are crowded and that theardiness enthusiastic is good ground for thinking that the appeal to reason is not failing of effect, and that public opinion in the "deciding province" is swaying in the direction of wider markets and greater trade. It would be remarkable if, when the case is thoroughly understood, that should not be the result. The people of Ontario are on a par in the matter of intelligence and public spirit with those of any other province in the Dominion, and, like the people of all other provinces, they stand to gain and not to lose by the removal of artificial restraints to trade. Sir Wilfrid's appeal should reach them in two desirable places—their public-spirited desire to see all parts of Canada flourish; and their equally laudable desire to better conditions in their own part.

ELIMINATING MR. FOSTER.

Hon. Mr. Foster is off to London to take up his permanent abode there, so we are informed in a dispatch from the capital. Just what the Minister—or late Minister—of Trade and Commerce is to do in the metropolis is not stated, beyond the fact that he is to draw a monetary contribution from his pockets of \$15,000 per year. If the expenses of the office are as large as the salary to be paid for discharging them, it should be possible to indicate in some intelligible way what are their nature and what is their expected outcome.

I am said to be a further part of the scheme to get Mr. Stratton, the High Commissioner, to resign. Mr. Foster will succeed him. Waiting for "dad mom's show" is sometimes a disappointing business, though the financial "disappointment" in this case would not fall upon Mr. Foster. Mr. Stratton has not resigned yet, and the record is one to indicate that that is of the resigning kind. If he is still Donald Smith, the net result of the shuffle will be that the Canadian tax-payer will have to put up \$15,000 per year for a new official whose duties to date as "minister" without form or void." This is a good one for Mr. Foster. He has also his removal from the Government is thought to be a good thing for the Government. How it is to be good for the people who have to bear the expense is still a mystery.

CRIPPLING THE NEW RAILWAY!

Some months ago a report went the rounds of the newspapers to the effect that the Government had decided to relax the specifications for the building of the National Transcontinental, and would permit the road to be built with grades so steep as to materially increase the haulage capacity of an engine and to lessen the volume of traffic which could be sent over the line in a given period. The report aroused instant and general alarm throughout the western country, where the construction of this road on the highest possible standard has as its object of great facilitating the annual crop movement, and of also cutting down the cost of the long rail haul to the Atlantic when the lakes are closed to navigation. So general was the apprehension aroused by the report that what was reported as a denial of it was issued, instead of the commissioner in charge of construction.

Laurier during the tour of Sir Wilfrid Laurier in Northern Ontario, however, Hon. Geo. P. Graham and Hon. Charles Murphy openly charged from public platforms that such a road as outlined was actually being made for the construction of the road. It was said that not only were new grades and curves being made heavier than allowed by the Act of Parliament ordering the building of the road, but that bridges were being lowered and cut filled to make work easier. In confirmation to this, the former standard now followed. So far, no denial has been made to these specific charges that an Act of Parliament has been set aside, and that the traffic capacity of the new road is being sacrificed either to a misinformed notion of economy or on account of the heavy delays and difficulties interested in East and West traffic.

As the Ministers saw fit to have denial made of similar report when published in newspapers, it is hardly likely they would sit silent while the charge is openly repeated from public platforms by leading members of the opposition of the time. It is a basis of fact which makes denial impossible. Unless and until the report is authoritatively contradicted there is, unhappily, good ground for believing that the new national highway is being built in a manner not in conformity with the orders of Parliament, a manner which must lessen its efficiency both as a traffic route and as a competitive railway.

CURRENT COMMENT.

Discussing the "Discrepancy."—Montreal Gazette.—There was a rather serious fire in Halifax yesterday, which took two loadings of sailors from the Grand Trunk training ship Victoria Louise up to help the firemen in their work. A sailor who had been on the ship has been a Canadian harbor master in New York, and the good Samaritan probably had no difficulty in getting them a great opportunity to get a job.

Walker's Promise.—Sir Wilfrid Laurier was definitely promised that he would draw up a list.

Calais' Complaint.—He told the failure to compile a proper list and to make a rigid clause etc. as a condition of his services. Mr. Clarke's occasion to also refer to the question of the electric railway. All the time he was talking he lay throughout the property of two or three sides. In this manner the older members of the delegation were able to hear him. Mr. Clarke added that he had never belonged to a body in all his career that had put up so much money as Calais did, and the council has here this year.

Letter from Type Union.—A letter from the type union typographical union asking that a committee be formed with the object of investigating the question of the type which had voted for the nine hours day. This subject called for considerable discussion and was referred to the chairman of the committee.

Edmonton's Problem.—Mr. Foster added that he had never belonged to a body in all his career that had put up so much money as Calais did, and the council has here this year.

Apprenticeship.—After considerable further discussion it was suggested that a committee be formed to consider the question of apprenticeship.

Reformoughts Further.—After considerable further discussion it was suggested that a committee be formed to consider the question of apprenticeship.

Boots Regarding Bulgaria.—It is believed that Serbia, Greece and Montenegro can easily be induced to accept, but there is not the same confidence in the Balkan states that will be able to control the war fever which has clutched the people here.

Threats already are heard that King Ferdinand will ride the crown if he is not given a seat in the Senate.

The upshot is, "I shall maintain my seat in the Senate."

Recognition of the fact that danger exists is the first step in proving a check on the optimism to which diplomats would otherwise be inclined to give rein.

THESE OLD PEOPLE OWE THEIR HEALTH**To the Wonderful Powers of "Fruit-a-lives!"**

Mrs. N. JOURNET of GRANDE LIGNE, P.Q., says:

"For more than 10 years, I suffered with Constipation and piles. I tried many cures, but none did much good. After taking four boxes of "Fruit-a-lives" I am well. I am now over 60 years of age."

Mrs. W.M. PRATT, general store-keeper at ST. JOSEPH, ONT., says: "I am 70 years of age and long suffered tortures from Headaches, due to Stomach trouble. I was advised to try "Fruit-a-lives". I did so and they completely relieved me."

Mr. WM. PARSONS of OTTERVILLE, ONT., says: "I am 71 and 70 years old and a great deal of trouble has been caused me by piles. I took a box of "Fruit-a-lives" and now a box, 6 for \$3.50, trial size, 25c. At all dealers or from Fruit-a-lives Limited, Ottawa."

UNION MEN DISCUSS TENANT'S FRANCHISE

This Question Occupied Much of the Time at the Regular Meeting of the Trades and Labor Council Last Night.

Last night's meeting of the Trades and Labor Council, in Mechanics Hall, consisted of little more than a prolonged discussion of the franchise of fraternities. Ald. Clarke was present at the invitation of the council and explained the interpretation of the ruling of Mr. Black.

Applications were received from the leaders under carpenters, stone-cutters, electric workers, and plumbers and others for franchises, and the seven new designates in all were admitted to the council.

A communication was received from the City of Edmonton regarding the question of placing extra cars for the benefit of laborers coming to the city to work. A letter states that this was impossible at the present time but the request would be kept in mind.

In response to a request from the striking Jouverters of "Trotter's" union for assistance in their fight for their cause, it was decided to make a grant of \$10 to be forwarded to the union.

CHEER IS RAISED FOR LAURIER AT FOOTBALL GAME

"We Want Laurier" Cried Undergraduates of Toronto University from Grand-stand.

LIBERAL CHIEF BOWS HIS ACKNOWLEDGMENT

Remarkable Success of Ontario Tour Enthuses Liberals of That Province.

Toronto, Oct. 7.—"We want Laurier" was the cry of victory students and their visitors from McGill at the football oval on Saturday afternoon when they witnessed the tall figure of their distinguished visitor, Sir Wilfrid, with his "cigar-puffing" wife, Mrs. Laurier, go to the oval to see the game, which the six hundred spectators with keen interest had been watching with bated breath. Sir Wilfrid had been invited to attend the match, as the chief delegate to have a quiet afternoon after his strenuous tour of the west.

Great Clap Gave Him

Described by Professor Falconer, of the University, as "the most brilliant" with Hon. Sydney Fisher and other members of his party arrived at the stadium, the crowd gave him a handshaking ovation. "There was no interest in the game than the arr-

angement," said one student unapprised, and they were only in watch the game undisturbed. Later, however, when they moved to leave, he saw that the crowd immediately roared the "white plumes" of the Liberal leader and a sheet of instant applause followed. "It was all right," said Sir Wilfrid, who was obviously delighted. "I am glad to see that our delegation was compelled to doff his hat and have several times."

A few minutes later the undergraduates in the bleachers recognized the Liberal leader, who had come, which readily took a definite form in a thunderous shout of "We want Laurier." The cheering was continuous. As Sir Wilfrid's carriage proceeded a delegation of students went out and cheered him. He stopped to shake hands with the students and then came to the bleachers and say a few words to the boys. This, however, the older ones wanted to do, so a few people went up to the delegates and shaking each cordially by the hand he left the ground, followed by the students and the rest of the students and the rest of the crowd.

In the evening he and his colleagues were at the National Club, where the old Liberal leader, Sir George at the National Club, which was attended by some seventy leading Liberals of the city.

LIEUT. BECKER'S TRIAL OPENED IN NEW YORK

No Change in Plans of Prosecution as Result of Murder of "Big Jack" Selig, Gang Leader Who Supplied Rosenthal's Murders.

New York, Oct. 7.—The death of "Big Jack" Selig, although a severe blow to the prosecution, caused no change in the plans for the opening today of the trial of Lieut. Becker, accused of the killing of Rosenthal.

Prosecutor charged yesterday the murderer of Ga. Joe Herman Rosenthal, two hundred and fifty telephones reported early at the criminal courts building, and the entire press corps through the corridor waiting to see Becker brought across the Bridge of Sighs from the Tombs.

The indictment of a grand jury to investigate all phases of the Rosenthal case promised to occupy Justice Gottfried until the trial of Becker, but the prospects were that the examination of telephones would not begin until after Becker's trial.

Word was telegraphed ahead, and on the arrival of the train at Rosenthal's home, he was welcomed to the door by his wife, who had been welcomed to her room.

Sir Wilfrid, leaving Toronto to-day, was given a hearty welcome by the Pinckertons, who have been engaged in the protection of the Rosenthal family since the time of the shooting. The Pinckertons, who have been engaged in the protection of the Rosenthal family since the time of the shooting, were present at the trial, and finally in leading the way for Canadian participation in the defense of Ireland, which he will again engage in the campaign. In the interests of better education, he has decided to remain in Canada, which some time ago inaugurated

Against Terms, Hoping It Is

By Bulletin Leased Wire.

Rome, Oct. 7.—A majority of the Italian delegation seem to be in agreement with the conditions under which peace between Italy and Turkey has been arranged.

The opponents of the peace settle-

ment are believed to be aiming at

the return of Tripoli, which they

contend should be retained by Italy

or turned over to Greece. Finally

in concluding peace at the present time is to clear the way for the Balkan

conflict to be fought.

DEATH OF "JACK" McNAMARA.

Mr. "Jack" McNamara, one of Ed-

monton's sturdy band who went north into the Klondyke many years ago, died at the age of 65 at his home in the city, the result of ten days of pneumonia, contracted while out driving. He was 42 when he first went to the Yukon and 50 when he returned to Edmonton. His first attempt to reach the "Golden Land" was over the old Edinburgh Trail, which took him along the side of the Rockies. The journey took him through the mountains and itself makes a very easy approach.
